Leiden Meeting

DEMONSTRATIONS

Lemon R.N., Muir R.B., Thon H. & Van der Burg J. Methods for identification of single motor cortex neurones with projections to motoneurones of hand and forearm muscles in the conscious monkey. 2*P*

Rijnsburger W.H., Van den Berg R.J., Van Dongen A.M.J. & Versluijs C.A.A. An extremely fast voltage clamp for Ranvier nodes. 3*P*

Dijkema F.K., Elzinga G. & Holewijn A.J. Measurement of temperature changes in muscle contraction with a thermopile and amplifier designed to improve signal-to-noise ratio and resolution in time and place. 4*P*

Elzinga G. & Van der Laarse W.J. Measurement of oxygen consumption of single frog muscle fibres. 5*P*

Settels J.J. & Wesseling K.H. Non-invasive, continuous, calibrated blood pressure by the method of Peñáz. 6*P*

Ince C. & Van Duijn B. Intracellular free calcium measurements by fluorescence microscopy on single Quin 2-loaded cultured human monocytes. 7*P*

de Goede J., de Vos A. & van den Berg R.J. Location of $1/f$ noise: ion channel or bulk ionic solution? 8*P*

Buisman H.P., Jongsma H.J., van Dongen A.M.J., van Meerwijk W.P.M. & Ypey D.L. An interactive computer model for simulation and analysis of stochastic behaviour of ionic channels. 9*P*

Boekee A., Spaan J.A.E. & van der Meer M. A versatile perfusion system for coronary artery perfusion in dog and goat. 10*P*

Bouman A.I.E., Kerkhof G.A., Lancel M., Plooij-van Gorsel P.C. & Sumter D.F. Individual differences in the human circadian system. 11*P*

Alinder G., Greeley G.H., Hekkens W.Th.J.M., Rietveld W.J., Rubin N.H. & Thompson J.C. The central control of circadian rhythmicity in food intake in the rat; the use of long-term recording techniques. 12*P*

COMMUNICATIONS

Nuboer J.F.W. & Wortel J.F. A comparison of the spectral sensitivities of the chicken and the pigeon. 13*P*

Gregory L.J., Hankins M.W. & Ruddock K.H. GABA-induced polarizations of horizontal cells in the isolated fish retina persist in chloride-free Ringer. 14*P*

Brenner E., Nuboer J.F.W. & Schelvis J. Early colour deprivation in pigeon and monkey. 15*P*

Collewijn H., Erkelens C.J. & Regan D. Neither ocular vergence nor absolute disparity changes produce motion-in-depth sensation in man. 16*P*

Bretschneider F. Transient measurement of the membrane potential of receptor cells of an ampullary electroreceptor in the transparent catfish. 17*P*

Blom J.L. Is there a difference in human male and female brain activity? 18*P*

Collewijn H., Steinman R.M. & Van der Steen J. The performance of the smooth pursuit eye movements system during passive and self-generated stimulus motion. 19*P*

Fritz N., Illert M., Kolb F.P., Lemon R.N., Muir R.B., van der Burg J., Weidemann E. & Yamaguchi T. The cortico-motoneuronal input to hand and forearm motoneurones in the anaesthetised monkey. 20*P*

Hammond G.R., Miller S. & Potts Jean M. Strategies of upper limb control in hemiplegic stroke patients. 21*P*

Datta A.K., Fleming Jean R., Hortobagyi T. & Stephens J.A. Short-term synchronization of high-threshold motor units in human first dorsal interosseous muscle recorded during steady voluntary isometric contractions. 22*P*

Denier van der Gon J.J., Gielen C. & van Zuylen E.J. Activation of motor units in human arm muscles in relation to elbow joint angle. 23*P*

Godschalk M. & Lemon R.N. Further studies of monkey post-arcuate premotor neurones whose activity occurs before visually cued arm movements. 24*P*

Feldberg W., Pyke D.A. & Stubbs W.A. Phentolamine hyperglycaemia in cats. 25*P*

Angel A. The effect of benzodiazepines upon transmission of somatosensory information in the urethane-anaesthetized rat. 26*P*

Korving J., Rietveld W.J. & Wirz-Justice A. Circadian control of behaviour modified by chronic application of metamphetamine in the rat. 27*P*

Bobbert A.C. & Korving J. Control of the rabbit's food-intake pattern by two circadian oscillators. 28*P*

Eerbeek O. & Kernell D. Long-term nerve stimulation affects electromyographic properties of cat's skeletal muscle. 29*P*

Bryant Cecily A., Leslie G.C. & Part N.J. Observations on isometric twitches of human soleus before, during and after prolonged low-frequency stimulation. 30*P*

Patberg W.R. & Veringa F. Graded blocking of non-myelinated vagal fibres in the rabbit. 31*P*

Daniel P.M. & Lam D.K.C. The weight of the choroid plexus of the rat and its role in the passage of ascorbic acid into the brain. 32*P*
